Earn 15 PD Points for successful completion.

(Changes to cruise or workshop may occur before sailing)

To deliver and assess these units, we are again fortunate to secure the services of Trevor Skerry, highly experienced and qualified trainer from Skills Training Australia, who will remain on board with us for the cruise.

Diversional & Recreation Therapy Accredited Skillset

Trauma, grief and loss support skills - the DRT's essential guide to improving practice

Both these nationally accredited units can be used towards attaining the **Cert IV in Mental Health, Cert IV in Alcohol and Other Drugs, Cert IV in Mental Health Peer Work and Cert IV in Ageing Support**. Plus, either one contribute to many other nationally accredited Cert IV and Diploma courses.

It also stands alone as valuable best practice training for DRTs.

Trauma Informed Care (TIC) frameworks and philosophies have been identified as current best practice in the support of people who have experienced, are experiencing or are at risk of experiencing trauma. This TIC framework highlights the need to acknowledge peoples past experiences and how these experiences may impact on current problem solving and coping mechanisms as well as impacting on peoples mental and physical health.

The two units (Respond to suspected abuse and Provide loss and grief) will be delivered by using the TIC philosophy to identify and deliver best practice support the people you currently care for.

CHCCCS021 Respond to suspected abuse

This unit describes the skills and knowledge required to Identify signs of possible abuse, take appropriate action according to role and responsibilities and minimise the risk of abuse to a person.

AND

CHCCCS017 - Provide loss and grief support

This unit describes the skills and knowledge required to recognise and respond to the needs of people who are experiencing loss, grief and bereavement.

All students will be required to complete some online training or pre-reading **BEFORE the cruise departs....**
