

Looking for a mid-winter escape?

WHY NOT HEAD TO SUNNY CAIRNS QLD TO THAW OUT?

The end of July sees your opportunity to experience the holiday of a lifetime on the Barrier Reef as well as enjoying an incredible professional development opportunity. Diversional and Recreation Therapy Australia have put together 2 workshops in far North Queensland- one on the Friday and one on the Monday- leaving the weekend for you to relax, enjoy and feel the sun again!

Friday 27th of July we have planned a general workshop including professional development and service information and lots of Activities for you to take back to your workplace, followed on **Monday 30th of July** by Cognitive Stimulation Therapy training!!

Learning this evidence-based therapy is a must if you work with People with Dementia- this is the only non-pharmacological treatment available to people with mild to moderate dementia that is having a profound impact on people's lives- slowing down cognitive loss and giving a sense of hope to those with dementia and their carers.

Check out your options and register now! Remember costs associated with professional development in the area in which you are employed are tax deductible!

We are also offering a small incentive for you to attend both workshops- when you register for the two workshops you receive a discount: **DRTA members can attend both workshops for \$399 and Non Members at \$480.**

Check online for the flyers and register today. Spaces are limited for the Cognitive Stimulation Therapy training so don't miss out!

Stephania Bejma
National Education Coordinator for DRTA
